

## EXHIBIT PROFILE

### CATEGORY A : Weapons and Ammunition - Turrets

- A.1 Air Defence Systems
- A.2 Anti-to-ground and Coastal Defence Systems
- A.3 Anti-Tank/Wall Breaching Weapon Systems
- A.4 Army Ordnance and Ammunition
- A.5 Mortars and Mortar Ammunition
- A.6 Specific Weapon Systems and Ammunition
- A.7 Guns and Ammunition for armoured vehicles > 40mm -Turrets
- A.8 Medium Calibre Weapons and Ammunition (20 to 40 mm) - Turrets & Mounts
- A.9 Small Calibre Weapons and Ammunition <20 mm - Turrets & Mounts
- A.10 Close Defence Weapons
- A.11 Land Mines and Explosive Charges
- A.12 Signalling and Illuminating Devices
- A.13 Igniters and Firing Mechanisms
- A.14 Propellants, Explosives, Charges
- A.15 Fuses, Homing Heads, Guidance Systems
- A.16 Class A Sub-Assemblies and Components
- A.17 Upgrading Category A equipment

### CATEGORY B : Vehicles - Aircraft - Drones (UAV)

- B.1 Main Battle Tanks and variants > 30 ton
- B.2 Armoured Vehicles < 30 ton
- B.3 Light Armoured and Un-armoured Vehicles - Other vehicles - Robotic Vehicles
- B.4 Aircraft - Drones (UAV)
- B.5 Parachuting and Air Delivery
- B.6 Vehicle Engines and Transmission systems - Amphibious Propulsion Systems
- B.7 Fuel - Lubricants - Storage - Supply
- B.8 Class B Sub-assemblies and Components
- B.9 Upgrading Category B equipment

### CATEGORY C: Battlefield Management /C4ISTAR (C4ISTAR + Target Acquisition)

- C1 C4I Systems
- C2 Observation - Driving/Piloting - Position finding and Navigation
- C3 Measuring Devices - Observation - Target Acquisition
- C4 Automatic Liaison Systems - Fire-Coordination Systems
- C5 Military Space
- C6 Military Telecommunications Networks
- C7 Communications Equipment
- C8 Electronics (Vetronics) - Onboard systems
- C9 Detection, Information- Gathering and Identification Systems
- C10 Deception and Countermeasures Equipment
- C11 Electric Power Supply
- C12 Cables - Fibres - Insulation
- C13 Class C sub-assemblies and components
- C14 Upgrading Class C equipment

### CATEGORY D: Training & Simulation - Support - Protection - Operational Logistics

- D1 Training - Simulation
- D2 Supporting and Equipping the man
- D3 Medical Treatment - Casualty Handling - Hospitals - Rescue - Field Hygiene
- D4 Protection during Conventional Operations
- D5 NRBC Protection
- D6 Operational Logistics and Installations
- D7 Upgrading Class D equipment

### CATEGORY E: Special Equipment: Engineering Works - Crossing - Terrain Clearance - Army Participation in Homeland Security - Peacekeeping - Urban Operations (MOUT)

- E1. Engineer Field Works
- E2 Water Crossing - Diving
- E3 Bridging - Obstacle Crossing
- E4 Terrain Clearance - Explosive Ordnance Disposal

- E5 Homeland/Internal Security
- E6 Peacekeeping - Population control - Military Operations in Urban Terrain (MOUT) Note: Humanitarian relief: see D3
- E7 Upgrading Class E equipment

### CATEGORY F: Industrial and Logistic Support

- F1 Equipment Support and Packaging
- F2 Engineering - Manufacturing
- F3 Measuring and Testing Systems
- F4 General-use Components and Sub-assemblies - Treatment of Materials
- F5 Upgrading Class F equipment

### CATEGORY G: Industry Sectors Involved

- G1 Trials, Measuring and Verification
- G2 Electricity, Electro-technique, Electronics, Computing
- G3 Thermal and Electric Power
- G4 Manufacture and Industrial Use of Metals, Plastics, Textiles and Composite Materials
- G5 Hydraulics
- G6 Oil and Chemical Industries
- G7 Optics and Optronics - Lasers
- G8 Pyrotechnics
- G9 Robotics
- G10 Simulation
- G11 Telecommunications

### CATEGORY H: Services

- H1 Professional organizations
- H2 Teaching and Training Organizations
- H3 Government-related Security Organizations (Police, Civil Defence)
- H4 Research Institutes and Laboratories, Trials Organizations
- H5 Security and Land Defence Consultancy Companies, Technical Assistance
- H6 Service Providers and Suppliers
- H7 Defence Exhibition and Defence-linked Events Organizers
- H8 Press - Specialized Publications - Publishing - Printing
- H9 Miscellaneous

### CATEGORY I : Naval Ships and Submarines

- I.1 Ships
- I.2 Submarines
- I.3 Naval Boats
- I.4 Naval Equipments

Major General  
M. Ijaz Hussain Awan, HI (M)  
Director General, DEPO

It is a matter of great satisfaction and pleasure for DEPO to be the organizer for IDEAS, 6th time in succession. The chronicle of IDEAS series is one of the continuous successes with IDEAS 2008 as the most consequential in the history of the exhibition industry of Pakistan. I say this with great pride that over the last decade, IDEAS has emerged with prominence on the map of global defence exhibitions.

IDEAS is an established rendezvous in this part of the world for convergence of international defence exhibitors, delegations, security analysts and top policy planners where defence and security of the future takes shape through series of different conferences and a well attended seminar. It provides a platform to showcase technology of tomorrow and innovations in defence with more than 2000 weapon systems and items of equipment on display; it is a market place of innovative ideas and also brings together international manufacturers and suppliers of products and services to explore the opportunities for cooperation in the field of defence production through joint ventures, outsourcing and collaboration.

IDEAS exemplifies a successful public and private sector partnership. It has grown in its reach, participation and international attendance to a level that is second to none in the region. In addition, the profile of the high-level delegations visiting Pakistan to attend this exhibition adds to the prestige and stature of this Event. IDEAS, in fact, is a great meeting point to promote friendship and cooperation.

I look forward to welcoming the distinguished participants of IDEAS-2010.
